

Mental Health Awareness Week event May 11th 2017

On Thursday May 11th the Birmingham Branch hosted an event to celebrate Mental Health Awareness Week.

The event was organised by the Disabled Members' Group and was attended by over 20 members/stewards and Branch Officers.

Birmingham MIND and Healthy Minds gave a presentation on what their services provide as well as the issues facing people with Mental Health disabilities which was very informative and appreciated by those present.

There was ample time for those attending to ask questions as well.
